The Most Extensively Used Book for Piano Beginners.

Beginner's Book

School of the Pianoforte, Vol. 1

By Theodore Presser.

Price, 3/- net.

This Work has Attained an Unparalleled Success and is Used by Thousands of Teachers Who Proclaim it the Best.

"Beginner's Book" is practically a "First Reader" in Piano Study.

The Simplicity of This Work has enabled Many Teachers to Achieve Speedy Results with even the Youngest Beginner.

Despite the author's long experience as a teacher, and in the musical educational field, this work was not quickly put together. Every step was measured, every problem weighed, all useless waste cut out, with the object of producing a work which would ensure the greatest progress without sacrifice of essential thoroughness.

Printed With Large Music Notes—Abundant Explanations are Given.

All elementary books in the modern public school are printed in large type to aid the child eye in forming impressions. The same principle is applied to this book by the use of large notes where needed.

The first grade of study up to, but not including the scales, is covered. Elaborate care was taken to have the grading so gradual that the pupil will advance without discouraging difficulties introduced at the wrong time. Writing exercises are added to supply the common need of notation. Time and rhythm, are, of course, also covered, and then Exercises at the piano are given.

Without neglecting technical exercises, occasional interesting pieces are inserted to reward and entertain the child. Little duets for teacher and pupil, as well as test questions after every advance, complete the work in such a manner that its success does not surprise.

"Beginner's Book" cheerfully sent to Teachers for Examination. If you have never used this work order a copy now for examination.
